

## Til alle beboere i Wessels Have

Slyngplanter og lignende der vokser som vist nedenfor, det vil sige fra jeres altan/terrasse op til altanen ovenover **skal** straks fjernes, da de ødelægger altanernes betonkonstruktion. 3. sals beboerne bedes endvidere sikre at beplantningen **ikke** når taget. Spørg eventuelt vores havemand, Per, til råds.

## To all residents in Wessels Have

Plants, creepers, etc. that grow as indicated above, i.e. from your balcony/terrace to the balcony above **must** be removed immediately, as it destroys the concrete structure of the balconies. The 3. floor residents are furthermore asked to ensure that the plants do **not** reach the roof. If in doubt please consult our gardener, Per.
